

Worldwide Risk Consulting

About Procovery

Procovery is a professional consulting firm with consultants around the globe. Procovery offers high-end Risk Consulting Services, including Property Loss Control, Business Continuity Planning, Environmental, Health & Safety, and Natural Hazards Risk Consulting. Every consultant has at least 12 years experience and is a recognized leader in their respective field.

Customized services designed to help with:

Physical Risk Assessments to Evaluate Vulnerabilities to Fire, Natural-Hazards, Security, Utilities, Human Factors, etc...

Risk Improvement Planning to Develop Strategies to reduce physical risks.

Natural Hazard Specialists to Evaluate and Mitigate risks associated with Earthquake, Wind, Flood, Rain, Collapse, Freeze, Lightning, Winter Storm, Hail and Tornado.

Machinery Specialists to Evaluate Electrical and Mechanical Equipment for Reliability, Proper Design, Installation, Operation, Maintenance and Contingencies.

Safety Specialists to Evaluate Safety Programs, Ergonomics, Industrial Hygiene, Hazardous Materials, Environmental, etc...

Business Continuity Professionals to Evaluate and Develop Programs for Recovering Manufacturing, Supply-Chain, IT, R&D, Workplace, Critical Facilities, etc...

IT Specialists to Develop Disaster Recovery Plans for responding to interruptions related to Information Technology.

Security Specialists to Evaluate Physical Protection and Terrorism threats.

Industries Served

Manufacturing, High-Tech, Data Processing, Pharmaceutical, R&D, Wafer Fab, Distribution, Financial, Construction, Real Estate, Institutional, Hospitality, Utilities, Healthcare, Telecommunications, Commercial and many more...

Success Stories

A hi-tech company kept downtime at mission-critical sites at historic lows, despite a rapidly changing industry and continued growth.

They did this through a sound Business Continuity Program that included state-of-the-art loss prevention programs.

Reduce the risk of sprinkler leakage.

Success Story: For one institutional client, our consultant surveyed the entire sprinkler system, identified weak points that could break in an earthquake, helped the client obtain funding from executives, and helped hire a contractor to do the work.

A pharmaceutical client hired our consultant to help manage fire sprinkler installations.

Result: With innovative fire-protection solutions, the client saved over \$1,000,000 on these installations.

Contact Procovery

"Our consultants are ready to help clients stay profitable, reduce risks and prepare for disaster."
- Chris Scheffler, Procovery Risk Consulting
